Yeong Yang micro chassis **YY-A105** from the Tiny Tower serie with the anthracite liked colour is available with a 200W power supply. The Hi-Light blue LED design shows the Hi-Tech feeling and makes your PC more advanced. CD-ROM, Floppy and USB devices are hidden behind a cover.

OFFER OF THE MONTH

YY-W101+CWT300ATX12V PFC

Only 68 Euro

- Workstation chassis for ATX, MicroATX MB
- 3x5.25" FDD, 2x3.5" FDD, 2x3.5" HDD
- With 1x12cm fan and 300W PFC power supply

MODIFICATION

Surpassing the 3 GHz mark, the Intel® Pentium 4 processor at 3.06 GHz offers higher levels of performance, creativity and productivity.
In order to ensure the ventilation of the 3.06 Ghz CPU, Yeong Yang has modified the midi chassis **YY-5240** and **YY-5505** by constructing an air guide in the side panel.
These chassis will be available from May 19, 2003.
